ABOUT THE FOUNDATION

Noorie Education Foundation is a non-profit educational foundation working in and around Gujranwala, Pakistan. From our main Village Campus near Nandipur Power Plant and our City Campus in Dhulle, we teach the Quran and the Islamic sciences, give girls, women and young people practical modern skills, and bring health and welfare services to the families around us.

Our aim is simple: a child should not only memorise, but grow in character; a daughter should be able to learn a skill without leaving a safe environment; and every family should find help close to home.

Completely free	No admission fee, no monthly fee and no hidden costs, in every programme.
Funded from the UK	Our founder and his family fund the Foundation entirely. We take no fees, donations or funds within Pakistan.
Knowledge with character	Alongside memorisation and skills we build tarbiyat: cleanliness, manners, service to others and physical health.
Safe spaces for women	Girls and women learn from female teachers in a trusted environment close to home.
